Cut Out Tiles

Cut Out Tiles

For best results print out on 225gsm card and laminate.
Cut out four Lotto Boards and 36 picture tiles.

Picture Lotto Instructions. For 1 or more players

Give each child a Lotto Board and place the picture tiles face down. Take turns to turn over a picture tile. If the picture tile does not match a picture on their Lotto Board, they put the picture tile back, face down.

Ideas for Extended Play:

- Print out two sets of Picture Tiles to play Matching Pairs. (You may want to start with a few cards and build up to a larger number.)
- Give your child some 'cut & glue practice' by getting them to cut out the picture tiles and stick them on a lotto board.
- Select one set of picture tiles and place them face up on a table. Get your child to look at them and then ask them to cover their eyes while you take one away. See if they can guess which one is missing!
